

SOFTWARE INNOVATION: BOOSTING HIGH-TECH EMPLOYMENT AND INDUSTRY

Moderator

Christina Forsgård, Netprofile

5 December, Stockholm - Sweden

CO-SUMMIT 2013

Connected Smart Objects / Smart CPS will create the next wave of innovation for Europe

Building on high tech strongholds
expanding to wider markets
conquering emerging smart X markets

Virtual value chains allow weaker
regions to participate
in value creation around SW

CPS-related activities in EU R&I programmes help to transform
our current strengths into future growth and jobs
